# Cross Country Greenhouses: Built for Life, Designed for You

**Cross Country Greenhouses** by BC Greenhouse Builders have been designed for gardeners who want a greenhouse that works with their climate, not against it. This flagship aluminum line brings together proven engineering and flexible design options, so your greenhouse can be tailored to your yard, your growing goals, and the conditions you garden in year after year. For 75 years, BC Greenhouse Builders has built quality structures that can be handed down from generation to generation.

LAST CHANCE OFFER  
**SAVE 10%**

Act now to claim our best available offer before it's gone.

**SAVE 10%** on all Cross Country made-to-order, Heritage Wood, and Winter Gardenz greenhouses.

Prices going up March 6th, 2026. Contact us today!

## Choose Cross Country If You:

- **Want peace of mind in weather.** Standard ratings start at 85 mph win and 32 psf snow, with updated options that can exceed 140 mph and 100 psf snow.
- **Need a design that fits your home and yard.** Cross Country brings together the Pacific, Cape Cod, Cottage, and Traditional profiles, with flexible sizes and layouts.
- **Care about plant health and comfort.** All greenhouses come with automated roof vents and optional heating and cooling upgrades giving you the power to create the ideal environment.

**Not sure which greenhouse is right for you?**

Try our **Greenhouse Match Quiz** to help you find which greenhouse line matches your space, climate, and growing goals. **Scan the QR Code to get started.**

# Heritage Wood Greenhouses: Highest Quality, Best Insulation

Made exclusively by **Charley's Greenhouse and Garden Supply** in Mount Vernon, WA. Handcrafted with premium Western Red Cedar and built-in exhaust fan system. The Heritage line brings together the warmth of natural wood with the function of a real working greenhouse.

## Choose Heritage Wood If You:

- Want a greenhouse made right here in Washington State by artisan craftsman from superior **Western Red Cedar**.
- Are looking to invest in a **wood greenhouse that will last**, not a kit you replace after a few seasons.
- Need significant insulation from a greenhouse. Our Alpine Insulated Cedar Greenhouse has the **highest insulation of any wood greenhouse** on the market today.

## The Westgrove Greenhouse:

### BC Greenhouse Builders' 75th Anniversary Model

A classic 8'x12' Cottage Greenhouse offering bright, classic glazing and a backyard friendly footprint.

## The Westgrove Highlights:

- 8'x12' footprint making it permit-free in most municipalities
- 3 mm single pane overlap glass sidewalls with optional twinwall polycarbonate roof
- Choice of white or black frame
- Upgrade option of decorative ridge cresting or ball finials available

**LIMITED TIME PRICING: \$8,895 until March 6th**
